Work with refugees seems to be recognized as a cross-cutting issue at the municipal level. However, implementing this is not always easy and requires collaboration. How can policy coherence be achieved? What are the advantages and disadvantages of this? Together with policy analyst Jasmijn Slootjes (MPI Europe) and Dolinda Cavallo, representing the European Association for Local Democracy, we want to learn more about and show the practical implementation on site through a few examples. Finally we want to explore which policy fields are particularly relevant for integration and identify insights for our own work.
